Quality settings

Quality assurance

- A quality policy has been defined and written.
- A quality manual / documentation system has been defined into the company in order to insure the quality of our products. It is based on the IFS (International Food Standard) repository.
- With a repository used in the food sector, our quality manual includes in particular a HACCP evaluation of our products.
- Analyses are realised on the commercialised products. We have an internal laboratory to realize these analyses.

Traceability

- Traceability is insured from the reception of the product to the delivery to our customer.
- A withdrawal process of our products has also been defined in case of problem.
