

Belgian Malts that Make Your Beer So Special

SPECIFICATION

CHÂTEAU WHEAT BLACK Crop year 2018

Parameter	Unit	Min	Max
Moisture	%		4.5
Extract (dry basis)	%	77.0	
Wort color	EBC(Lov.)	1100(413.1)	1400(525.6)

Features

Château Wheat Black 1100 - 1400 EBC. The darkest malted wheat. Château Wheat Black will contribute the same deep colour characteristics to the beer as our traditional barley Chateau Black malt.

Characteristics

Château Wheat Black is a very special roasted wheat malt that will add complex flavours to your beers, the most pronounced note being coffee with intense roasted characters. Thanks to our unique roasting technology, this malt will not bring any astringency to the beer. Please note you will not obtain any taste typical of non-roasted wheat malts.

Usage

Dunkelweizen, Altbier, Black IPAs, Schwarzbiers, and specialty ales. Up to 20% of the mix.

Storage and Shelf life

Malt should be stored in a clean, cool (< 22 °C), dry (< 35 RH %) and pest free environment. If these conditions are observed, we recommend using all whole kernel products within 24 months from the date of manufacture and all milled products within 3 months. Improperly stored malts can lose freshness and flavor.

Packaging

Bulk; Bulk in Liner Bag in Container; Bags (25kg, 50kg); Big Bags (400 - 1 250kg). All types of packaging – in 20' or 40' containers for export.

IMPORTANT

All our malts are 100% traceable from barley field through all stages of malting process up to the delivery applying and respecting Regulation EC/178/2002 of the European Council regarding traceability.

All our malts are produced using the traditional process of over 9 days, a solid warranty of high modification of the grain and real top quality of premium malts.

Neither of our malts contains any genetically modified organisms as defined by European Directive 2001/18/EC, which means that all our malts are GMO FREE guaranteed.

All our malts are manufactured in strict conformity with the internationally accepted requirements HACCP (Hazard Analyses of Critical Control Points) currently in force and the ISO 22000 Food Safety Management System.

All our malts conform to EU and International regulations regarding the maximum allowable residues of pesticides, herbicides, fungicides, insecticides, as well as traces of mycotoxins and nitrosamines.

All our malts are transported only by GMP-certified transporters.
