

Belgian Malts that Make Your Beer So Special

SPECIFICATION

CHÂTEAU PALE ALE NATURE Crop year 2023

Parameter	Unit	Min	Max
Moisture	%		4.5
Extract (dry basis)	%	80.0	
Extract difference fine-coarse	%	1.0	2.5
Wort color	EBC(Lov.)	7.0 (3.2)	10.0 (4.3)
Total protein	%		11.7
Soluble protein	%	4.0	4.6
Kolbach index	%	38.0	45.0
Viscosity	cp		1.6
Beta glucans	mg/l		220
Diastatic power	WK	250	
Friability	%	80.0	
Glassiness (whole grains)	%		2.5
Filtration		Normal	
Saccharification	Minutes		15

Features

Belgian light-coloured organic base malt. Kilning at up to 90-95°C.

Characteristics

Usually used as a base malt or in combination with organic Pilsen 2RS malt to impart a richer malt flavour and additional colour. Being deeper in colour, this malt can add a golden hue to the wort. It is used with strong yeasts to produce organic amber and bitter beers. Château Pale Ale Nature malt is kilned longer and is usually better modified, providing a more pronounced flavour than organic Château Pilsen Nature®. The enzymatic activity of Château Pale Ale Nature malt is sufficient when used with large proportion of non-enzymatic specialty malts.

Usage

Organic pale ale styles and bitter beers, most traditional English beer styles. Up to 100% of the mix.

Storage and Shelf life

Malt should be stored in a clean, cool (<22°C) and dry (<35RH%) area. If these conditions are observed, we recommend using all whole kernel products within 24 months from the date of manufacture and all milled products within 3 months.

Packaging

Bulk; Bulk in Liner Bag in Container; Bags (25kg, 50kg); Big Bags (400 - 1,400kg). All types of packaging – in 20' or 40' containers for export.

Certification body: CERTISYS Av.de l'Esclime, 85 Schermlaan, B-1150 Brussels, Belgium,

www.certisys.eu. The ORGANIC malt which we have supplied to you is produced by Castle Malting (Malterie du Château), duly authorized, as confirmed by the CERTISYS certificate at your disposal. CERTIFIED BY BE BIO 01.

IMPORTANT

All our malts are 100% traceable from barley field through all stages of malting process up to the delivery applying and respecting Regulation EC/178/2002 of the European Council regarding traceability.

All our malts are produced using the traditional process of over 9 days, a solid warranty of high modification of the grain and real top quality of premium malts.

Neither of our malts contains any genetically modified organisms as defined by Regulation (EC) No 1829/2003 of the European Parliament and of the Council, which means that all our malts are GMO FREE guaranteed.

All our malts are manufactured in strict conformity with the internationally accepted requirements HACCP (Hazard Analyses of Critical Control Points) currently in force and the ISO 22000 Food Safety Management System.

All our malts conform to EU and International regulations regarding the maximum allowable residues of pesticides, herbicides, fungicides, insecticides, as well as traces of mycotoxins and nitrosamines.

All our malts are transported only by GMP-certified transporters.

You can see and print the results of the analysis of the malts delivered to you directly on our site www.castlemalting.com
